Model #: B078-001-USB

KVM Switch Accessories - NetCommander USB Server Interface Module

Highlights

- Needed to connect a USB Server to a B072-Series NetCommander KVM switch via Cat5e cable
- Easy to install; no software needed
- No power supply required
- Allows a recommended maximum distance of 35ft from KVM to computer/server via Cat5e cable
- Compact and lightweight design

Description

The Tripp Lite NetCommander USB Server Interface Module connects to the HD15 port and USB port on a computer/server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the server to the switch ports on a Tripp Lite B072-Series NetCommander Cat5 KVM switch. Use of Cat5e cables frees up space in the installation that would ordinarily be filled by traditional, thicker KVM cables.

System Requirements

- Server or CPU with a HD15 port and a USB port
- A B072-Series NetCommander Cat5 KVM Switch
- Cat5e/6 cable; up to 35ft

Package Includes

- 1 USB Server Interface Module

Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- Allows a Server/CPU to be located up to 35ft away from the KVM switch

Specifications

OVERVIEW	
Application	Connects a USB computer/server to a B072-Series Cat5 KVM Switch
Model Type	Interface Modules
CONNECTIONS	

Connector A	 RJ45 (FEMALE)
Side B - Connector 1	 HD15 (Male)
