

ASSEMBLY INSTRUCTIONS:

- A) Assemble roller wheel (item 2) to support brackets (item 1) and using 1/4-20 screw (item 3) and nylon nut (item 4). Tighten until wheel is secure but rolls freely.
- B) Mount roller wheel and bracket assembly onto M6 studs on bottom inside of door as shown. Fasten using M6 KEK nuts (item 5) and M6 washers (item 6) 2 places.

Note: If door is reversed support wheel can be mounted. M6 studs are at the top and bottom of door.
