360° Work Light

Woodhead
LIGHTING

another **bright idea** from Woodhead

Light your site economically without missing any of the performance you expect from Woodhead. The New 360° Work Light provides high-intensity light in all directions while providing all the flexibility and features you need. Fully assembled with lamps installed, this light is ready to go to work when you are.

Multi-Functional Cap

- Impact-absorbing ribs help protect from accidental damage
- Product hanger provides means to mount or store vertically
- Cord hooks allow for easy wrap and convenient storage of cords

Impact-Resistant Diffuser

- Clear PVC guard helps protect lamps from accidental breakage
- Vertical ribbing diffuses light to reduce glare while maintaining high light output
- Three 32-watt lamps (included) meet **OSHA 1926.56** for minimum illumination of work areas
- T8 fluorescent lamps are cool to the touch and suitable for indoor use versus halogen worklights

Integral Tripod Stand

- Tripod stand eliminates the need for a secondary mounting device
- Adjustable locking ring positions light to fit in any workspace
- Structural steel parts and heavy-duty construction withstand most harsh environments
- Tripod opens up to 23" diameter base for exceptional stability
- Tripod folds up with secondary clamp and snap to save space when not in use

Rugged Base

- Convenience receptacle provides up to 10 Amps of power for auxiliary equipment or additional lights
- Electronic ballast provides reliable operation and efficiency over the life of the product
- NEMA 5-15 plug with integral cord clamp keeps the cord from tangling during storage

Specifications

Voltage	120VAC 60 Hz
Light Output	9931 Initial Lumens 5000K Color Rendering
Lamp Style	3, 32-Watt T8 Fluorescent Lamps
Lamp Life	20,000 Average Hours
Height	67" Stored, 65" Installed
