1. Introduction

The G21.W (Generation II) Hercules is a high performance steel thread-mount Penta-band cellular antenna for external use on vehicles and outdoor assets worldwide.

Omni-directional high gain across all bands ensures constant reception and transmission. Durable UV resistant ABS housing is resistant to vandalism and direct attack. At only 29 mm height it complies with the latest EU height

restrictions directives for roof-mounted objects, with a diameter of 49 mm. Designed to not catch on tree-branches.

This antenna can be mounted on metal structures.
