

Fiberglass Cement Resistors

Power Wirewound & Axial Lead Type

Normal & Miniature Style [PSP Series]

INTRODUCTION

The PSP Series Resistors are wound on Fiberglass core. The materials used and the construction techniques ensure excellent flame resistance, arc resistance and moisture resistance as well as self-extinguishing capabilities. They will withstand the most rigorous loading test.

As resistors in radio and television receivers, hazardous conditions such as smoking and redheat can be completely prevented by the proper choice of power resistors.
