

# Wall Wash Cooler 82W Rectangular Mounting LED Heat Sink

**This LED Heatsink is part of the Nuventix scalable LED portfolio.**

**Future proof** – Designed with the rapidly evolving light engine industry in mind, thermal performance can be easily increased or decreased without a luminaire redesign by adding or removing a SynJet Cooler

**Flexibility** – Configure to order luminaire production process, use heatsinks for low lumen applications and the SynJet Cooler with heatsink for higher lumen versions

**Freedom** – Compatible with most major light engines so thermal solutions and mechanical interfaces do not have to be redesigned when changing light engines

**Fast** – In stock and ready for overnight delivery, worldwide

The chart below summarizes the thermal performance of all rectangular LED heatsink solutions

Heatsink Rise Above Ambient vs. Thermal Power  
Rectangular Heatsinks

<sup>1</sup> All values are typical at 25°C unless otherwise stated.

<sup>2</sup> Thermal resistance values are given as reference only and are measured in free air without airflow obstructions. Thermal resistance is measured from the bottom middle of the heat sink to ambient air, with a heat source of 19 cm<sup>2</sup>. Actual thermal performance may vary by application and final product design should be tested to assure proper thermal performance.
